

TENDER DOCUMENT

Construction of Regional Warehouse and Cold Storage Facility (5,000 sqm) at the Southern Regional Logistics Park

Reference No: NFLC/CW/2026/T-087

Issued by: National Food Logistics Company (Private) Limited

Date of Issue: Friday, 12 June 2026

Procurement Method: Single Stage - One Envelope (National Competitive Bidding)

Contact Email: tenders@nflc.com.pk

1. INTRODUCTION

National Food Logistics Company (Private) Limited (hereinafter "NFLC" or "the Employer") is a state-owned logistics enterprise responsible for the procurement, storage and distribution of strategic food commodities. NFLC invites sealed bids from eligible and pre-qualified construction firms for the construction of a Regional Warehouse and Cold Storage Facility with a covered area of approximately 5,000 square metres, together with associated external works, at the Southern Regional Logistics Park. The works comprise civil and structural construction, insulated cold storage chambers, HVAC and industrial refrigeration plant, electrical and mechanical services, fire detection and suppression, and site development. This tender document sets out the scope of works, eligibility requirements, key dates, bill of quantities structure, evaluation criteria and conditions of contract.

2. SCOPE OF WORKS

2.1 General Description

The contractor shall execute and complete the following principal components, in accordance with the drawings, technical specifications and bill of quantities issued with this tender:

- Earthworks, excavation and site grading for an overall plot of 2.5 acres, including dewatering where required;
- Reinforced concrete foundations, columns and grade slabs designed for a uniform floor loading of 5 tonnes per square metre in the dry warehouse zone;
- Pre-engineered steel building (PEB) superstructure of approximately 5,000 sqm covered area with a clear internal height of 10.5 metres at eaves;
- Construction of four (4) insulated cold storage chambers totalling 1,800 sqm with PUF insulated panels (150 mm walls and ceiling), operating at temperature ranges of +2 to +8 degrees Celsius (two chambers) and -18 to -25 degrees Celsius (two chambers);
- Supply, installation, testing and commissioning of the industrial refrigeration plant, including compressor racks, evaporators, condensers, refrigerant piping, insulated doors, air curtains and a plant monitoring system;
- HVAC works for the administration block, battery charging room and quality control laboratory;
- Electrical works including an 11 kV substation, 630 kVA transformer, LT panels, power and lighting distribution, earthing, lightning protection and a 500 kVA standby diesel generator;
- Fire detection and addressable alarm system, hydrant network, sprinkler protection in the dry warehouse, and clean-agent suppression in the server and control rooms;
- Loading docks (8 bays) with dock levellers, dock shelters and high-speed doors;
- Internal roads, paved marshalling yard for 25 trucks, boundary wall, guard rooms, weighbridge foundation (60-tonne), water supply, underground and overhead water tanks, and sewerage and storm water drainage;
- Administration block of 400 sqm covered area, including offices, records room, laboratory and staff facilities.

2.2 Design Responsibility

The works shall be executed on a construct-only basis against the Employer's issued-for-construction drawings, except for the refrigeration plant and the pre-engineered steel building, for which the contractor shall provide detailed shop drawings and design calculations, prepared and stamped by a professional engineer registered with the Pakistan Engineering Council (PEC), for the Employer's approval prior to fabrication.

2.3 Completion Period

The entire works shall be completed and handed over, tested and commissioned, within fourteen (14) months from the date of the Engineer's notice to commence. A detailed construction programme in Primavera P6 or Microsoft Project format shall be submitted within fourteen (14) days of the notice to commence and shall be updated monthly.

2.4 Materials and Workmanship

All materials shall conform to the technical specifications and to the relevant Pakistan Standards or, where no Pakistan Standard exists, to the applicable British or ASTM standards named in the specifications. Structural concrete shall be batched at an approved plant with cube testing at a site laboratory; reinforcement steel shall be Grade 60 deformed bars from an approved mill with mill test certificates for every consignment. PUF insulated panels shall carry factory test certificates for density, thermal conductivity and fire classification. The contractor shall submit material approval requests, with samples where required, at least fourteen (14) days before intended use, and no material shall be incorporated in the works without the Engineer's written approval.

3. MANDATORY ELIGIBILITY CRITERIA

Bidders must satisfy all of the following mandatory requirements. Non-compliance with any requirement shall render the bid non-responsive:

- **EC-1:** The bidder must hold a valid constructor licence issued by the Pakistan Engineering Council (PEC) in category C-2 or above, with the licence valid for the year 2026 and covering the relevant specialisation codes (CE-01 civil works and ME-05 HVACR). PEC licence category C-2 is mandatory; bids submitted by firms licensed below category C-2 shall be rejected.
- **EC-2:** The bidder must be registered with the Securities and Exchange Commission of Pakistan or the Registrar of Firms, and with the Federal Board of Revenue (NTN and STRN), and must appear on the Active Taxpayers List.
- **EC-3:** The bidder must have completed, within the last eight (8) years, at least two (2) industrial or warehouse construction projects each of contract value not less than PKR 250 million, of which at least one must have included cold storage or industrial refrigeration works. Completion certificates from the employers concerned must be enclosed.
- **EC-4:** The bidder must have an average annual construction turnover of not less than PKR 400 million over the last three (3) audited financial years, supported by audited financial statements.
- **EC-5:** The bidder must demonstrate access to liquid assets or unconditional credit lines of not less than PKR 80 million, supported by a bank certificate issued not earlier than thirty (30) days before the bid submission deadline.
- **EC-6:** The bidder must submit an affidavit that it is not blacklisted or debarred by any federal, provincial or local government department, autonomous body or public sector organisation in Pakistan.
- **EC-7:** The bidder must furnish bid security equal to three percent (3%) of the bid price in the form of a bank guarantee or pay order from a scheduled bank of Pakistan.
- **EC-8:** The bidder shall deploy a full-time site agent who is a PEC-registered professional civil engineer with at least ten (10) years of post-registration experience in industrial building construction, supported by a PEC-registered mechanical engineer with at least seven (7) years of experience in refrigeration and HVAC installations. CVs, PEC registration numbers and undertakings of availability must be submitted with the bid.
- **EC-9:** The bidder must have a documented health, safety and environment (HSE) management system; ISO 45001 certification or an equivalent third-party-audited HSE system is mandatory.

4. KEY DATES

Event	Date	Time (PKT)
Issuance of Tender Document	Friday, 12 June 2026	-
Pre-Bid Site Visit and Meeting	Tuesday, 7 July 2026	10:30
Deadline for Clarification Questions	Friday, 31 July 2026	16:00
Bid Submission Deadline	Wednesday, 19 August 2026	11:00
Public Opening of Bids	Wednesday, 19 August 2026	11:30

A pre-bid site visit and meeting shall be held on Tuesday, 7 July 2026 at 10:30 PKT, assembling at the NFLC Regional Office, Southern Regional Logistics Park. Attendance at the site visit is strongly recommended; bidders shall be deemed to have inspected the site and satisfied themselves as to ground conditions, access and utilities. Clarification questions must be emailed to tenders@nflc.com.pk no later than Friday, 31 July 2026 at 16:00 PKT. Sealed bids must be delivered to the Tender Box at NFLC Head Office no later than Wednesday, 19 August 2026 at 11:00 hours Pakistan Standard Time (PKT); bids received after this deadline shall be returned unopened. Bids shall be opened publicly the same day at 11:30 PKT in the presence of bidders' representatives who choose to attend. Bids shall remain valid for ninety (90) days from the bid submission deadline, that is, up to and including Tuesday, 17 November 2026.

5. ESTIMATED COST AND BILL OF QUANTITIES

5.1 Estimated Cost

The Engineer's estimated cost of the works is PKR 480,000,000 (Pakistani Rupees four hundred and eighty million only), equivalent to approximately USD 1.72 million. The estimate is provided for information; bids shall be evaluated against the bill of quantities rates quoted by the bidder. Bids exceeding the estimated cost by more than ten percent (10%) may be rejected following a financial capacity review by the tender committee.

5.2 Bill of Quantities Structure

The bill of quantities comprises the following principal bill sections, and bidders shall quote unit rates against every item:

Bill No.	Description	Indicative Share of Works
Bill 1	General requirements, mobilisation and site facilities	5 percent
Bill 2	Earthworks and civil/structural works	34 percent
Bill 3	Pre-engineered steel building supply and erection	22 percent
Bill 4	Cold storage chambers and refrigeration plant	21 percent
Bill 5	Electrical works and standby generation	9 percent
Bill 6	Fire protection, plumbing and external works	9 percent

Rates shall be quoted in Pakistani Rupees inclusive of all taxes, duties and levies. The contract shall be admeasurement-based; quantities are provisional and payment shall be made against measured work at quoted unit rates. A price adjustment formula for steel, cement and fuel, as set out in the conditions of contract, shall apply after the sixth month.

6. HEALTH, SAFETY AND ENVIRONMENT REQUIREMENTS

The contractor shall implement a site-specific HSE plan, which must be submitted within fourteen (14) days of the notice to commence and approved by the Engineer before mobilisation of major plant. The HSE plan shall address, at a minimum: scaffolding and work at height; lifting operations and crane management; confined space entry; ammonia handling and refrigerant safety during charging and commissioning; hot works and welding; electrical safety and lock-out tag-out; dust and noise control; waste management; and emergency response. The contractor shall deploy a full-time qualified HSE officer for the duration of the works, shall conduct daily toolbox talks, and shall report all incidents, including near misses, within twenty-four (24) hours. The Employer operates a zero-fatality policy; any fatal accident attributable to contractor negligence shall constitute grounds for termination. All workers shall be provided with personal protective equipment and shall be covered under workmen's compensation insurance. Monthly HSE statistics shall be appended to each interim payment certificate.

7. EVALUATION CRITERIA

Bids shall first be screened against the mandatory eligibility criteria in Section 3. Responsive bids shall then be scored against the following criteria; the contract shall be awarded to the highest-scoring responsive bidder:

Evaluation Criterion	Weight (Points)
Relevant Construction Experience and Completion Record	25
Technical Staff, Plant and Equipment Capacity	15
Construction Methodology and Programme	15
Financial Soundness	10
Bid Price	35
Total	100

A minimum score of forty (40) points out of the sixty-five (65) non-price points is required for the bid price to be evaluated. The lowest evaluated bid price shall receive the full 35 points; other bids shall receive points in inverse proportion to their evaluated price.

8. TECHNICAL QUESTIONNAIRE

Bidders shall provide written answers to the following questions as part of their technical submission. Each answer shall not exceed two (2) pages:

Q1. Construction Methodology: Describe your overall construction methodology and sequencing for completing the warehouse, cold storage chambers and external works within fourteen (14) months, including temporary works, concurrent work fronts and your approach to maintaining programme float.

Q2. Refrigeration Plant: Describe the proposed refrigeration system design, including refrigerant selection and justification, compressor configuration and redundancy, defrost strategy, insulation system, temperature monitoring and alarm arrangements, and the testing and commissioning plan for achieving the specified chamber temperatures.

Q3. HSE Management: Describe how your HSE management system will be applied on this site, including the site HSE organisation, the specific controls you will apply for work at height, lifting operations and refrigerant handling, and your incident reporting and investigation procedure.

Q4. Quality Assurance and Materials Testing: Describe your quality management arrangements, including the site laboratory and testing regime for concrete and steel, factory inspection arrangements for the PEB and refrigeration equipment, inspection and test plans, and the handover documentation you will provide.

Q5. Resources and Programme: Provide a summary of the key plant and equipment you will mobilise, the peak workforce by trade, your proposed site organisation chart with the site agent and engineers required under criterion EC-8, and a narrative explanation of the critical path of your programme.

9. SUBMISSION INSTRUCTIONS

9.1 Marking and Delivery

Bids shall be submitted in a single sealed envelope marked "BID - NFLC/CW/2026/T-087 - REGIONAL WAREHOUSE AND COLD STORAGE FACILITY" bearing the bidder's name and address, and shall be deposited in the Tender Box at the Office of the General Manager (Procurement), National Food Logistics Company (Private) Limited, NFLC Head Office, 14-Industrial Avenue, Karachi. Bids submitted by email or facsimile shall not be accepted. Telephonic enquiries shall not be entertained; all queries shall be emailed to tenders@nflc.com.pk quoting reference NFLC/CW/2026/T-087.

9.2 Checklist of Documents

The bid must contain the following documents, in the order listed, with an index and page numbering:

- Completed and signed form of bid on the prescribed format;
- Priced bill of quantities with every page initialled by the authorised signatory;
- Bid security instrument equal to three percent (3%) of the bid price;
- Valid PEC constructor licence (category C-2 or above) for 2026;
- SECP or Registrar of Firms registration, NTN, STRN and ATL evidence;
- Completion certificates for the qualifying projects under criterion EC-3;
- Audited financial statements for the last three financial years and the bank credit line certificate;
- Affidavit of non-blacklisting on stamp paper, duly notarised;
- CVs, PEC registration numbers and availability undertakings of the site agent and engineers under criterion EC-8;
- ISO 45001 certificate or equivalent third-party-audited HSE system documentation;
- Technical questionnaire responses (Q1 to Q5);
- Power of attorney in favour of the signatory and the signed integrity pact.

Bids not accompanied by the bid security or the valid PEC licence shall be rejected at opening without further evaluation.

10. CONDITIONS OF CONTRACT, PENALTIES AND LIQUIDATED DAMAGES

The contract shall be executed on the standard form of contract for admeasurement works adopted by the Employer, based on the PEC standard conditions. The successful bidder shall furnish a performance security equal to ten percent (10%) of the contract price within fourteen (14) days of the letter of acceptance, valid until the end of the defects liability period. A mobilisation advance of up to ten percent (10%) of the contract price may be granted against an unconditional bank guarantee, recoverable in equal deductions from interim payment certificates. If the contractor fails to complete the works within the completion period of fourteen (14) months, liquidated damages shall be levied at the rate of 0.1 percent (zero point one percent) of the contract price per day of delay, up to a maximum of ten percent (10%) of the contract price, after which the Employer may terminate the contract and complete the works at the contractor's risk and cost. The defects liability period shall be twelve (12) months from the certified date of completion, during which the contractor shall remedy all defects at its own expense. Retention money of five percent (5%) shall be deducted from each interim payment certificate, one half releasable on completion and the balance on expiry of the defects liability period. The contractor shall, before commencement, effect and maintain contractor's all risks insurance for the full contract value plus fifteen percent (15%), third-party liability insurance of not less than PKR 25 million per occurrence, and workmen's compensation insurance covering all site personnel, each with the Employer named as co-insured, and shall furnish copies of the policies and premium receipts to the Engineer. The contract shall be governed by the laws of Pakistan, and disputes shall first be referred to the Engineer for determination and thereafter, failing amicable settlement within twenty-eight (28) days, to arbitration in Karachi under the Arbitration Act, 1940.

11. CONTACT INFORMATION

General Manager (Procurement), National Food Logistics Company (Private) Limited, NFLC Head Office, 14-Industrial Avenue, Karachi. Email: tenders@nflc.com.pk. Telephone: +92-21-34550217 (10:00 to 16:00 PKT, Monday to Friday). All communications shall quote tender reference NFLC/CW/2026/T-087. Canvassing in any form shall result in disqualification.
